

MINISTRY OF HEALTH

PREVENT THE SPREAD OF COVID-19

By Preventing Respiratory Infections

- ✓ Cough or sneeze in your elbow.
or
- ✓ Cover your mouth and nose with tissue when you cough or sneeze.
- ✓ Put your used tissue in the trash bin when you are finished.
- ✓ Wash your hands with soap and clean water after you cough or sneeze.

If you cough and sneeze into your hands, you may end up spreading more germs onto everything you touch.
